

Reference Guide – User Level IDs

Log on to the LMS at: www.hvacls.com

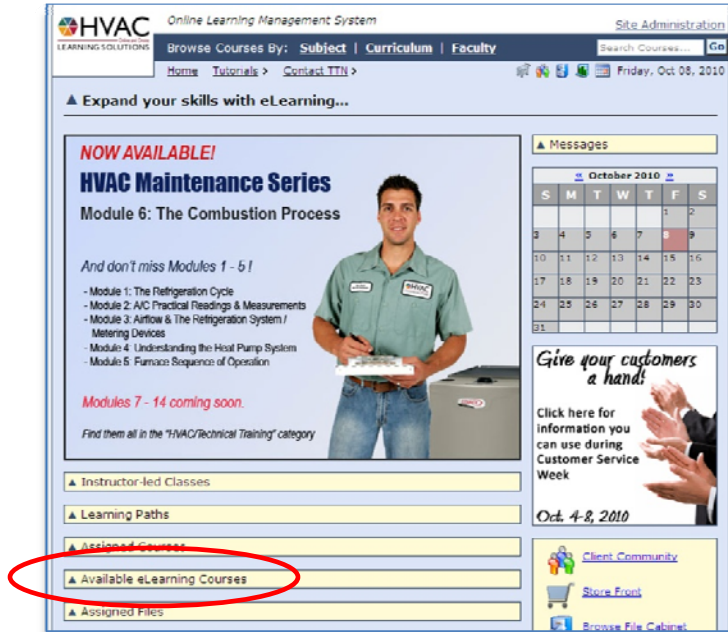

If you forget your login information, email info@hvacls.com.

On the Home Page:

- **Instructor-Led Classes:** Live training offered by HVACLS.
- **Learning Paths:** Series of courses selected to address a set of skills, etc.
- **Assigned Courses:** Courses you have been assigned. (Only shows up if you have been assigned courses.)
- **Available eLearning Courses:** All online (eLearning) courses are located here, organized into categories.
- **Incomplete Courses:** Courses you have started but not completed.
- **My Course Catalog:** Courses you have added to your catalog. Only populates when you actually choose to add a course to it.
 - **To add a course to your Catalog:** On a course description page, on the right of the page you will see an option to “Add to My Course Catalog.”
- **HVAC Professional Assessments:** 360 Professional Assessments plus the HVACLS Technical Needs Assessment. When these are completed, a list of Recommended Courses is generated. **Note: There may be a cost associated with these.**
- **Completed Training:** Courses/Learning Paths/Tests you have completed are listed in this section. **Note:** Go here to print completion [certificates](#).

Accessing Courses

From the LMS home page, go to the “Available eLearning Courses” area and click.

After choosing “Available eLearning Courses,” a complete list of subjects/courses will be displayed. Browse the subject links (open to display courses) and choose the course you would like to complete.

▲ HVAC LENNOX PRODUCT TECHNICAL TRAINING

[Lennox Residential Product - Andalay AC Solar Module System Technical Training](#)
 This course provides technical training for the new Andalay AC Solar Module System. The Lennox SunSource® Solar-Ready DLSC air conditioning or heat pump unit connected to the Andalay AC Solar Module System is a necessary combination to utilize solar energy. The course covers components, application, installation, wiring and warranty of the Andalay AC Solar Module System. [More >>](#)
Faculty: HVAC Learning Solutions
Length: 1:00:00
Course Highlights:

[Lennox Residential Product - CBX40UHV Series Air Handlers Technical Training](#)
 This course will enable learners to identify the components and features of CBX40UHV series air handlers, and optional ECB40 electric heat. It also covers detailed installation (upflow, horizontal, and downflow), set-up, start-up and operation, and maintenance procedures for the air handler unit. The final module covers troubleshooting of the various components including the variable speed indoor blower motor. The course is approximately 2 hours divided into eight modules. [More >>](#)
Faculty: HVAC Learning Solutions
Length: 2:00:00
Course Highlights:

[Lennox Residential Product - Enphase Microinverter System](#)
 This course provides technical training for the new Enphase Microinverter System. The Enphase Microinverter System is a part of the Lennox SunSource® Home Energy System, designed to utilize solar energy. This course covers the installation of the Envoy monitoring device. It also covers the process to activate the installation on the Enphase Enlighten™ website.
Faculty: HVAC Learning Solutions
Length: 25:00
